MyHOME_Up PRODUCT GUIDE

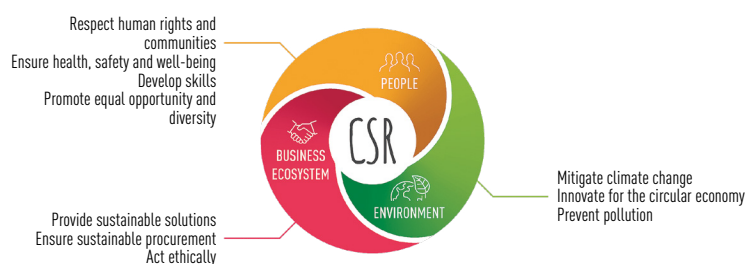

Global strength built on local knowledge

Legrand is the global specialist in electrical and digital building infrastructures. Innovation is the driving force behind its development.

With an increasing investment in research and development (circa 5% of sales) and more than 3,700 active patents, the Legrand Group is focused on maintaining a high rate of new product launches that present innovative solutions to the market.

CORPORATE SOCIAL RESPONSIBILITY

Legrand's CSR roadmap is a natural extension to the governance and sustainable development approach in which the company has been engaged for many years. The CSR roadmap firmly asserts Legrand's ongoing commitment to sustainable development.

Welcome Simplicity

A single app to easily associate devices, and to control and personalise all **MyHOME_Up** functions.

- NO CONFIGURATION
- AUTOMATIC SELF-LEARNING AND DEVICE ASSOCIATION USING THE APP
- SMART SCENARIO MANAGEMENT

MYHOMESERVER1

The heart of the MyHOME_Up system: the server allows for app control.

MyHOME_Up app

A user-friendly app to control all functions.

FOR THE **INSTALLER**

Download the **MyHOME_Up** app for iOS and Android smartphones and tablets.

1

Connect and power all MyHOME_Up system products.

2

The self-learning procedure is completely automatic. After a few minutes all the actuators will be working.

3

All devices will appear, ready to be associated.

FOR THE **CUSTOMER**

Customers can easily control home functions directly from the app, with any mobile device.

Using the app, homeowners can create their very own scenarios without the need for an installer. Scenarios can be activated based on:

SCHEDULING

Automatically activated based on a set time and date.

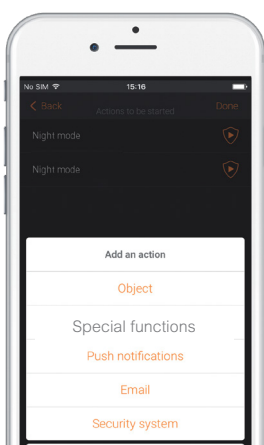

EVENTS

Run depending on a system event (temperature, setpoint, consumption level, push of a button), or weather condition.

GEOLOCATION

Based on user location.

With **MyHOME_Up** users can decide when and how they want to be notified that a scenario has completed.

Other connected devices can also be managed, such as:

Music
(Nuvo, Sonos)

Intelligent lighting
(Philips Hue, Lifx)

Smart TV
(Samsung, LG)

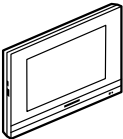

Stay connected with MyHOME_Up at home or away. Thanks to cloud service, the app is always connected to the home.

A seamless home network

A complete range of essential products and components for optimum multimedia around the home.

Make up your home system to your own specification to distribute phone, data, Internet, TV and audio cable throughout your home. This modular multimedia system fits in any DIN cabinet.

WIRED NETWORK PERFORMANCE

NUVO®

HIGH QUALITY DIGITAL MUSIC IN EVERY ROOM

Simplicity, quality & installation flexibility

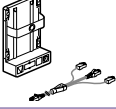

Listen to your digital music from any source and in any room. Nuvo is an intelligent system, specifically designed to stream music in any room in your home. Made up of several audio Hi-Fi components, it connects via Wi-Fi or cable to your home LAN network.

Using a dedicated free app on your smartphone or tablet, you can access music libraries in your local network or through online music streaming services.

This modular multimedia system fits in any DIN cabinet (easy plug)
It enables distribution in the home of phone, data, internet on RJ 45 and TV over coaxial
Each RJ 45 can be assigned to a different application via patch cords, using the same network, therefore giving maximum flexibility
No visible cable or patch cords
Using RJ 45 connectors ensures solid networks over time and reduces maintenance
